## Bijlage bij RIVM Rapport 2015-0166

### Monitoringsrapportage 2015 Stand van zaken Nationaal Samenwerkingsprogramma Luchtkwaliteit

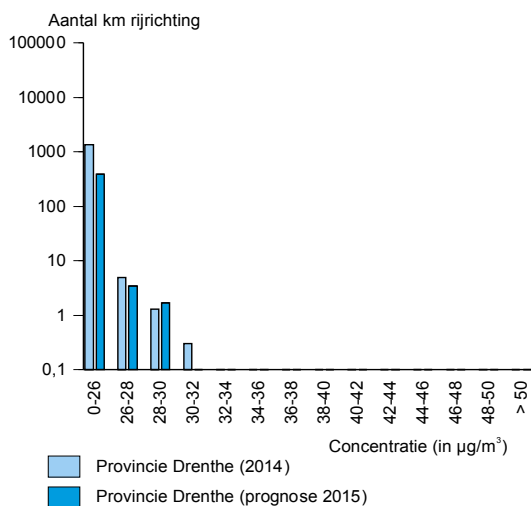

#### **Histogrammen van de resultaten voor NO<sub>2</sub> en PM<sub>10</sub> per provincie voor 2014 en 2015.**

In de linker figuren in deze bijlage is weergegeven hoe vaak een bepaalde concentratie NO<sub>2</sub> en PM<sub>10</sub> in elke provincie voorkomt. Hierbij is onderscheid gemaakt tussen de situatie berekend voor het rekenjaar 2014 en het rekenjaar 2015 (voor NO<sub>2</sub> het jaar waarop aan de normen moet worden voldaan). Daarnaast is in de rechter figuren weergegeven hoeveel mensen aan een bepaalde concentratie NO<sub>2</sub> en PM<sub>10</sub> worden blootgesteld. Voor meer informatie wordt u verwezen naar Hoofdstuk 2 en 4 van de Monitoringsrapportage 2015.

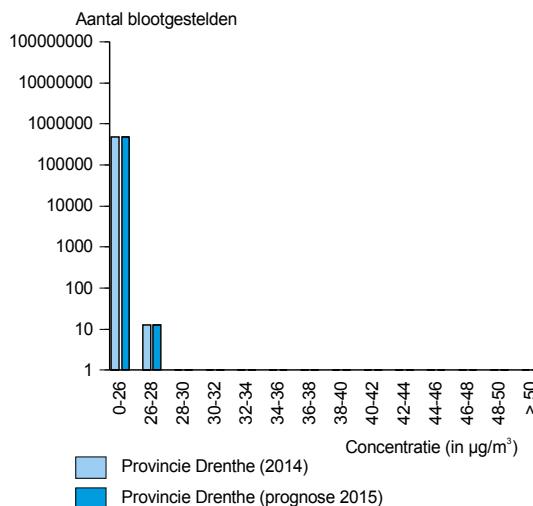

De in deze bijlage gepresenteerde concentratiehistogrammen voor PM<sub>10</sub> zijn exclusief specifieke overschrijdingen bij veehouderijen. Deze worden in hoofdstuk 3 in de Monitoringsrapportage 2015 gepresenteerd. De emissies van veehouderijen zijn wel in de achtergrondconcentraties meegenomen.

## Histogrammen van de resultaten voor NO<sub>2</sub> per provincie voor 2014 en 2015.

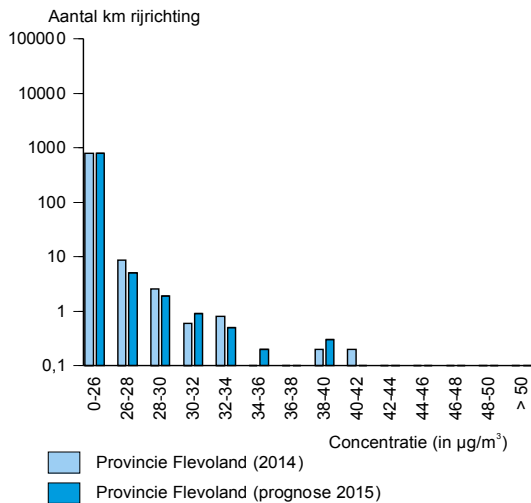

**Concentratiehistogram NO<sub>2</sub>**
