Bijlage bij RIVM Rapport 2014-0092

Monitoringsrapportage 2014 Stand van zaken Nationaal Samenwerkingsprogramma Luchtkwaliteit

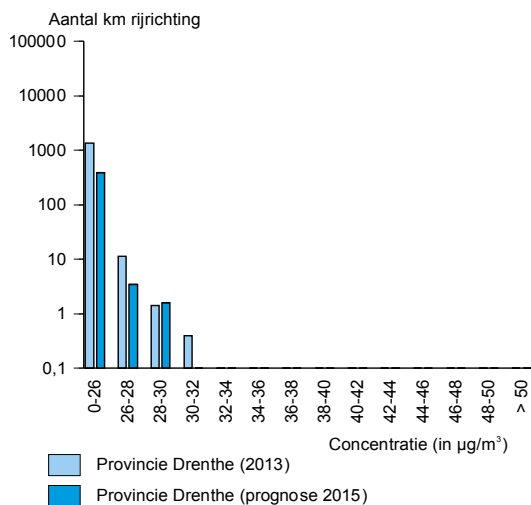

Histogrammen van de resultaten voor NO₂ en PM₁₀ per provincie voor 2013 en 2015.

In de linker figuren in deze bijlage is weergegeven hoe vaak een bepaalde concentratie NO₂ en PM₁₀ in elke provincie voorkomt. Hierbij is onderscheid gemaakt tussen de situatie berekend voor het rekenjaar 2013 en het rekenjaar 2015 (voor NO₂ het jaar waarop aan de normen moet worden voldaan). Daarnaast is in de rechter figuren weergegeven hoeveel mensen aan een bepaalde concentratie NO₂ en PM₁₀ worden blootgesteld. Voor meer informatie wordt u verwezen naar Hoofdstuk 2 en 4 van de Monitoringsrapportage 2014.

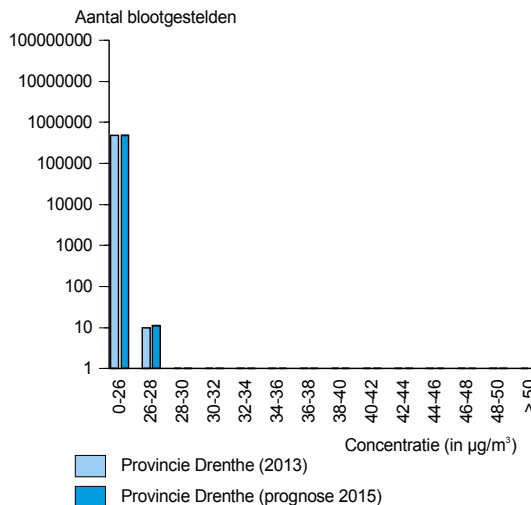

De in deze bijlage gepresenteerde concentratiehistogrammen voor PM₁₀ zijn exclusief specifieke overschrijdingen bij veehouderijen. Deze worden in hoofdstuk 3 in de Monitoringsrapportage 2014 gepresenteerd. De emissies van veehouderijen zijn wel in de achtergrondconcentraties meegenomen.

Histogrammen van de resultaten voor NO₂ per provincie voor 2013 en 2015.
